

### 2-3 players - Played like go fish

After downloading, print the images on cardstock paper and then cut along the black lines to create your playing cards.

Shuffle the cards and deal 4 cards to each player. Place the remaining cards down in a pile. Each player will take turns asking for cards (do you have a yellow monster, etc) If the answer is yes, take the card(s) from the other player and the turn is over. If the answer is no, draw a card from the pile and the turn is over. When a player collects 3 cards of the same color and can match a monster, those cards are placed on the table face up. Play until one player has no cards left in their hand. The winner is the player who has made the most monsters.
